THE EXPERIENCE OF  
POVERTY IN THE U.S.

WOLFF CONFERENCE ROOM, D1103  
ALBERT AND VERA LIST ACADEMIC CENTER  
THE NEW SCHOOL  
6 EAST 16TH STREET, NEW YORK, NY 10003

The Multidimensional Aspects of Poverty research, which was conducted from 2016 to 2019 in six areas across the United States, sought to determine the various aspects of poverty as experienced by people living in poverty. Using an innovative approach, people in poverty, academics, and social workers collaborated on every step to design and implement this project.

The result is a groundbreaking new look at poverty in the United States. On March 27, we will be releasing our report – but this is just the beginning.

Join us to learn more and to share your own thoughts and ideas. Poverty is created by all of us. Together, we can end it.
